Increased Accessibility for Students

Whereas, students at the University of Houston are deprived of accessible transportation,

Whereas, students are considerably deprived of third-party establishments that generate revenue and provide social-life,

Whereas, students are challenged by deteriorating infrastructure,

Therefore, be it by the Student Government Association of the University of Houston:

The goal of this resolution is to provide students at the University of Houston with more accessible transportation such as bikes and scooters provided by companies like Uber, Lime, and Lyft. This resolution also aims to provide our students with more third-party establishments that promote food, shopping, and other businesses that provide students with social life and interaction. Students should also not face issues in their daily navigation on campus due to deteriorating infrastructure. These goals will ensure revenue generation for the University as well as providing students with better quality of living and interaction on campus.

Be it further , the University of Houston will promote business-friendly conditions for the development of third-party establishments.

Be it further enacted, students will be provided with better transportation methods such as scooters and bikes available for use via apps.

#FOR THE STUDENTS

Be it further enacted, immediate action should be taken to develop infrastructure on campus to prevent flooding and damage, the blocking of walkways, and better accessibility to buildings for handicapped students and other student in general.
