Draft: Final

Marketing of Mental Health

Whereas, students at the University of Houston struggle to maintain high grades and a healthy well-being.

Whereas, Students should have reinforcement in the form of marketing to aid in understanding and increasing positive mindfulness.

Whereas, Many students do not recognize that counseling services are available on campus.

Therefore, be it enacted by the Senate of the Student Government Association of the University of Houston:

The goal of this resolution is to promote the significance and awareness of mental health as it is necessary for a positive and healthy well-being, as well as give students more information as to what is available to them on campus.

Be it further enacted, students should not have to repeat classes because they performed poorly due to mental illness.

Be it further enacted, students should be given proper support and resources so that mental illness does not hinder productivity.

Be it further enacted, a safe environment will be rendered in favor of the general welfare of the students and UH's reputation will improve.
